spellcaster university. kickstarter spellcaster university

Second kickstarter for Spellcaster University! : Spellcaster University has come a long way since the first attempt to kickstart. We have learned the lessons and this second kickstarter offers more accessible rewards, beta access, and a demo of the game. Check it out : The demo only features a version of the game under development, but will give you an idea of the gameplay and the current state of the game. Access to the beta will only be available at the end of the kickstarter if it is successful. For us, as a small team, this will be a great way to improve the game without having to rely on a legion of testers. For players, this will be a good way to give us your feedback. Spellcaster University is already quite rich in content, but there is still room for many new features, and player participation is essential to find new ideas.
